Stately hotel in a restored 1882 building offering charming rooms & suites, plus a classic saloon.

Google review: I have to give this place 5 stars. It is super charming and authentic and the staff couldn't possibly be more friendly and helpful. It is perfectly maintained and nicely quiet. Great atmosphere, sense of history, and just a "feel" of staying in something genuinely historic. And the restaurant! Wow! I don't know when I've ever eaten food that yummy! If this hotel is a travelling option for you, don't miss it.

Google review: This is my families second time staying here and the service is better than anywhere I've ever stayed and I've stayed at MANY hotels. Everybody who was working were beyond friendly if I'm ever out this way again I won't pick any other motel to stay in! You get dinner, breakfast, they have free massage chairs. What more can you ask for! But my favorite is the customer service definitely gets 6 out 5 stars if I could.

Google review: You can tell it was once a ma and pa shop. And still looks like one. Nice, quite, clean. Front desk lady was super nice. They just must have sold out to corporate for the name. It's a true nostalgic motel... If that's your thing I recommend it!
